

# MTX<sup>®</sup> AUDIO

## RTP12x2

Vented powered enclosure with dual 12" (2x30cm) subwoofers and 320W RMS CEA class-D amp

The best and most simple solution to add bass in your car

Dual 12" sub for more bass

Strong 15mm MDF construction

Injected brushed electroplated cone

Amp integrated on the side for a better thermal dissipation and an easier cables installation

Class-D amp for more power with less current (Less heat also...)
